-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Duhaylongsod et al (U.S.6,113,588).

Duhaylongsod discloses a system for harvesting a section of a vessel from an incision in a human or animal body (Figs.1-15), comprising a light catheter sized and configured to be inserted into a lumen of the vessel (see "the catheter is adapted to be introduced into a peripheral vessel... advanced into an internal vessel. The catheter includes a light delivery portion at a distal end thereof" in lines 5-8 of abstract), the light catheter being sufficient to illuminate substantially the entire vessel section (see

Art Unit: 3743

"delivering...light...to within a vessel" in lines 10-12 of col.4) with an intensity which is visible from an exterior of the vessel section (see "light...not substantially absorbed by the vessel itself" in lines 53-54 of col.1), a viewing element configured to be insertable through the incision and capable of viewing the illuminated vessel section (see "endoscopy to facilitate viewing...internal vessels during...procedures" in lines 54-56 of col.2), and at least one tool used to harvest the vessel section (see "harvesting" in line 67 of col.7) and being sized to be inserted through the incision (Fig.7).

***Allowable Subject Matter***

3. Claims 1-5 and 7-11 are allowed.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lindsay, Weadock et al, Chin, Hess et al ('102), Hess et al ('176) and Hess et al ('604) are cited to show harvesting devices and methods.
